

WELSH HIGHLAND RAILWAY ITEMS AT GWYNEDD ARCHIVES

Page revised 1 October 2017

Items under reference XD97 are the Festiniog Railway's deposit, in respect of the period prior to preservation.

Some items therein are specific to, or of particular reference to, the Welsh Highland Railway. A paper catalogue is, of course, held at the Caernarfon record office but researchers may find it helpful to pre-plan their searches by reference to a CD-ROM *catalogue* (price £15 + p&p) listing every document in this deposit and available from the Festiniog Railway's shop <http://www.festshop.co.uk/>

Copies or transcriptions of a number of files within this deposit which have **particular reference to the Welsh Highland Railway** have been made by the Welsh Highland Railway Heritage Group, details of which can be obtained from the Group's Membership Secretary: Derek Lystor, 14 Teign Village, Bovey Tracey, Newton Abbot, TQ13 9QJ; dick.lystor@welshhighlandheritage.co.uk The sub-files currently so held are given below. In some cases, the descriptions given in the CD-ROM catalogue have been abridged or amplified here.
